Contact Email	simon.goriup@symology.co.uk

System Details

System Name	Insight
System Version	V3.7.5
System Release Date	22 nd June 2020

Test Overview

Date Submitted

Full accreditation	21 st August 2020
--------------------	------------------------------

Notes:

1. Users must run the PI reports for England (130-01 and 130-02), Northern Ireland and Wales (PAM/020, PAM/021 and PAM/022) without entering any confidence values.
2. Symology have chosen not to submit the optional test for Scottish national reporting and so Insight is not accredited to supply the PI report for Scotland.
3. The final composite result for the PI report for Northern Ireland is currently not produced by Insight and should be calculated manually using the guidance supplied by Symology on the report template and in the online Help.
4. All section labels are automatically changed to upper case when imported.

Certificate Dated: 05/10/20

Certificate Version: 1.00

UKPMS AHC 2020_Certificate_Insight_v375_v1.00

5. Insight does not store or export Operator or Machine Code fields for Scanner surveys; instead it produces old-style Scanner HMDIF files.
6. In Insight the maximum number of parameters per defect is two. This has an impact on SCANNER crack map (LMAP) and co-ordinate (LCOO) data. For these defects only two parameters are stored (and exported).
