

## Cecilia Thordardottir

MSc MCIHT

*I'm passionate about the contribution the profession has to make our towns and cities accessible, sustainable and attractive places for everyone, and I see the Institution as being at the forefront of this discussion in the coming years.*

### **Tell us about yourself and your professional background, including why you want to be a Council Member:**

I would like to serve on the CIHT Council to contribute to the institution's vision for the future. I believe that there is great opportunity to influence design and placemaking to encourage more active travel and CIHT should be at the forefront of shaping the discussion in the post-pandemic world.

I graduated with an environmental and civil engineering degree in Iceland, working in highway consultancy until 2009. I then relocated to the UK where I completed my Masters degree in Transport at Imperial/UCL and have worked in transport planning consultancy ever since. I currently work at Velocity Transport Planning based in London where I am engaged by both public and private clients to provide transport and highways advice during the pre-planning and detailed design phases.

### **How will your particular skills and experience benefit Council? Give some examples from your professional or personal life that show you have the right skill set to contribute to the work of Council.**

I have a good range of experience within highway engineering and planning having worked first in detailed highway design before moving into transport planning working on projects both in London and the home counties. I am passionate about the role that transport planning has to make our town and cities better places to live, work and socialise, to reflect my commitment I am contributing to the development of guidance to introduce Transport Assessment practice in Iceland (Reykjavik). I really enjoy engaging with and working in combination with others to deliver results, am a good communicator and always listen to others point of view.

**Professional Affiliations:** Member, CIHT

**Education and Qualifications:** 1995 to 1999, Commercial College of Iceland, Matriculation Exam (A-Levels Equivalent); 2001 to 2005, BSc. Environmental and Civil Engineering at the University of Iceland; 2013 to 2014, MSc. Transport at Imperial College and University College London

**Present Post or Occupation:** I work at Velocity Transport Planning as a Senior Transport Planner starting April 2020 where I provide pre and post planning transport and highways advice.

**Past and Present Service to the Institution:** None

**Proposers:** Jonathan Howard BEng CEng MCIHT, Lloyd Bush MSc MCIHT, Tom Mabelson, Milena Lipska MSc CEng MCIHT

## Dana Skelley

FCIHT

*I see the CIHT leading the sharing of knowledge and experience to transport professionals and being a trusted global consultee and advisory body, considered vital by its members and shaping the future of transport and its impact on the environment.*

### **Tell us about yourself and your professional background, including why you want to be a Council Member:**

As a Nominated Council Member I have contributed to the development of the CIHT in terms of equality and diversity and communications. I have been a regular contributor to the Institute's journal Transportation Professional. I have introduced many new members to the Institute both individual and corporate partner, and provided support and mentoring to graduates and those seeking professional qualifications.

I have been involved with and supported CIHT conferences, panels and advisory groups for over ten years.

I see the CIHT as a progressive, inclusive Institute with a well deserved national and international reputation. Serving on the Council will enable me to continue to support and give direction to build on this deserved renown.

My current voluntary role as Chair of the Brunel Museum Trustees is a reflection of the Institute's purpose to advance for the public benefit the science and art of highways and transport and promote education.

### **How will your particular skills and experience benefit Council? Give some examples from your professional or personal life that show you have the right skill set to contribute to the work of Council.**

As a Chartered Civil Engineer I have been instrumental in improving London's Transport Infrastructure from the implementation of Trafalgar Square pedestrianisation to the Olympic Route Network. I have Chaired several Boards affiliated the CIHT including the UK Bridges and Lighting Boards leading change in Maintenance Codes and asset management.

My overarching passion, though, is for the development of our people and transforming the industry from one seen as a technocracy into a vital and exciting place where dynamic people progress, improve and make a difference to people's lives.

I have influenced change in many aspects of highways from compulsory competitive tendering to Best Value to collaborative working. I have put energy and drive into positive change in our industry including the risk based approach to highway's maintenance and the highways maintenance efficiency programme.

I am currently seconded to the DfT team as Project Director for Hammersmith Bridge rehabilitation.

**Professional Affiliations:** MICE, Institution of Civil Engineers

**Education and Qualifications:** 1982-1986, BEng Civil Engineering; 1995, Chartered Engineer; 2001-2003, MBA

**Present Post or Occupation:** Independent consultant in the field of transport infrastructure from 2019. Chair of Trustees Board Brunel Museum from January 2020.

**Past and Present Service to the Institution:** Present, Diversity and Inclusion Panel; Present, Transport Professional Panel; 2006, CIHT Certificate of Merit; 2017, Trustee; 2020, CIHT Awards judge

**Proposers:** Mitesh Solanki, Jo Field, Rowland Gordon, Emily Ingham

## David Ogden

BSc(Hons), FCIHT

*My ambition is for the CIHT to continue to be seen as the leading voice in our sectors, providing collaborative expertise and guidance to support our professions through the next decades wicked issues enabling a positive influence the associated outcomes.*

### **Tell us about yourself and your professional background, including why you want to be a Council Member.**

I am a proud Fellow member of the CIHT and am a passionate supporter of the institutes initiatives. It would be a privilege to serve on the council to explore and develop the role that the CIHT has in enabling the public and private sector to engage on sector-specific issues. Therefore, helping to create opportunities to boost productivity, employment, diversity, innovation and skills, and ensure that our sectors contribute to decarbonising the economy.

Over the next 10 years I believe we have a unique opportunity to transform our sectors, and positively impact the environments that we live, work, and travel within. However, to maximise this we must collaborate and develop new working relationships between the public and private sector.

This is an exciting time to be involved in our industry and as part of the CIHT council I would relish the opportunity to help shape the industries collaborative future

**Professional Affiliations:** Vice Chair, PIARC UK Committee

**Education and Qualifications:** 1992 – 1997, BSc (Hons) Quantity Surveying

**Current Occupation/Employment:** Business Director at Amey Highways since 2015, responsible for Local Highways, Streetlighting, Traffic Management, Highways Sector Strategy, Business' Development, Innovation and Operational Excellence

**Past and Present Service to the Institution:** 2020 -21, CIHT Council (Nominated Member); 2019 – Present, Learned Society & Technical Strategy Board

**Proposers:** Martin Tugwell, Geoff Allister, David Gillham, Alex Gilbert

## Jon Parker

FCIHT, CTPP

*CIHT has a fundamental role to play in helping to 'build back better', tackling climate change, creating more sustainable, inclusive, safer and healthy places. I would like to invest my skills and energies on Council to help make that happen*

### **Tell us about yourself and your professional background, including why you want to be a Council Member:**

I would like to serve on Council to help to continue to make CIHT more progressive, sustainable and inclusive. CIHT has incredible reach through its members and partnerships, and I therefore believe it is capable of taking an ever-more leading role in progressing an agenda for change which accelerates the drive to decarbonise our transport and planning system, and showing industry leadership. I would therefore like to serve on Council as I believe CIHT has such an important role to play in helping us to 'build back better', creating more sustainable, inclusive, safer and healthy places, and tackling the health, environmental and social impacts of transport. I would like to invest my skills and energies on the Council to help make that happen, and believe my industry knowledge would help strengthen the voice of sustainability on the Council

### **How will your particular skills and experience benefit Council? Give some examples from your professional or personal life that show you have the right skill set to contribute to the work of Council.**

Since the start of my career in 1992 I have contributed to CIHT activities in many ways, including serving on the sustainable transport panel since its inception, and acting as co-author on technical reports, best practice guides and as a regular conference speaker. I have been an ambassador for the TPP qualification, and supported the industry through many education and outreach programmes. I have a passion for mentoring, training and supporting the next generation of transport planners, and feel that I can positively contribute to all aspects of the CIHT core values to inspire, influence, inform and improve. My experience spans all aspects of transport planning, and for the last 20 years in leadership roles helping to shape the industry in more sustainable ways. My work on establishing the AccessAdvisr website to help mobility impaired travellers demonstrates just one example of my commitment to supporting an inclusive transport system

**Professional Affiliations:** Fellow, CIHT; Member, Transport Planning Society

**Education and Qualifications:** 1989 – 92, Bsc (Hons) Geography; 2014, Chartered Transport Planning Professional; 2016 – ongoing, Visiting Research Fellow, University of the West of England

**Present Post or Occupation:** Director of UK Transport Advisory Group at Royal HaskoningDHV (since 2020) and Director of Transport Planning at ITP (since 1998).

**Past and Present Service to the Institution:** 2010 onwards (est.), Active member of CIHT Sustainable Transport Panel; 2013, 2014 & 2017, Leading member of winning team for CIHT Sustainability Award; 2018, Steering group member of CIHT publication 'Buses in Urban Developments', 2019, Co-author of CIHT publication 'Better Planning, Better Transport, Better Places'; 2000 – 2020, Various 'Transportation Professional' technical articles; 2017, Member of winning team for the first 'CIHT Award'

**Proposers:** Neil Taylor, Colin Brader, Sarah Simpson, Geoff Burrage

## Karen McShane

BEng (Hons) CEng FCIHT MICE MIEI MTPS MRPSL

*Sustainable travel is imperative to achieve climate change. With a diverse background and over 30 years of experience and Institution backgrounds I can assist CIHT to develop innovative ideas to allow our members and affiliated companies to change the world.*

### **Tell us about yourself and your professional background, including why you want to be a Council Member:**

As a past Chair of the NI Branch I would like to serve on Council to contribute to the Institution's direction and progress. I have broad knowledge of professional institutions and CIHT at a regional and national level. I will bring over 30 years working experience in the Industry, both in terms of my career as well as in service to CIHT. As a Chartered Civil Engineer, I started my career as a road designer with the local Government Department before quickly moving to the Private sector to work on highways and transportation engineering for major development opportunities, becoming a Director responsible for £1m annual fees in transport contributing to £1bn in infrastructure. I have served on Regional Committees, Technical Panels, judging awards for the Construction sector and on Committees with professional institutions. I also serve on the Board of local charities one of which pioneers for diversity and inclusion.

### **How will your particular skills and experience benefit Council? Give some examples from your professional or personal life that show you have the right skill set to contribute to the work of Council.**

I have a broad range of technical and transportation skills from public, private and academia on sustainable transport, impact assessments and highway design. At ICE I worked with graduates seeking professional qualifications. I was part of the ICE team that instigated apprenticeship roles in civil engineering and am passionate about using this experience to bring young people to CIHT.

As chair of NI Professional Council, made up of 17 different Institutions, I have contacts throughout the construction and transport industry. I connect people for us all to learn from each other. I have strong communication skills, enjoy presenting and chairing events and have no difficulty in working with others to achieve outcomes and goals. Removing fossil fuel for transport is imperative and I will work to enhance CIHT's sustainability approach. With my passion for diversity I feel I can bring out the best in people and assist CIHT in inclusion.

**Professional Affiliations:** Fellow, Chartered Institute of Highways and Transportation, CIHT; Member, Institution of Civil Engineers, ICE; Member, Transport Planning Society TPS; Member, Engineers Ireland, MIEI

**Education and Qualifications:** 1988-1990, BEng Hons Civil Engineering; 1996, Chartered Civil Engineer CEng

**Present Post or Occupation:** Director of KMS Ltd Civil Engineering and Transport Consultancy, Associate Adviser to NI Executive with Strategic Investment Board, Guest Lecturer at QUB and Ulster University .

**Past and Present Service to the Institution:** 2017-2021, CIHT NI Branch Committee Member; 2017-2018, Chair CIHT Northern Ireland Branch; 2015-2021, CIHT representative on CIC Northern Ireland, Chair 2015-2017; 2008-2021, CIHT representative on UU Industrial Liaison Panel, Chair 2010-2017; 1988-2021, CIHT Member

**Proposers:** Geoff Alister, Ronnie Porter, Dr Andrew Murray, Bert Bailie

## Mitesh Solanki

FCIHT

*My ambitions for CIHT are as follows:*

- *Leaders of carbon net zero*
- *Embracing the digitisation of services*
- *Innovative and diverse in our thought process*
- *Leading in the continual professional development of our members*
- *Continually learning to evolve our service offer*

### **Tell us about yourself and your professional background, including why you want to be a Council Member:**

I am a qualified Civil Engineer with a Degree and Masters relating to my profession. I thoroughly enjoy my work and wake up enthusiastic every morning to give my best to my employer and my profession.

I would take great privilege to serve on Council and help the Institution progress and develop further through these challenging times we are all experiencing.

Having worked recently for CIHT as a Trustee and as Chair of the Appian Board, I believe I can continue to help the Institution to work our way through the recent pandemic and assist us in coming out stronger with a better service proposition to place us as a leading Institution.

### **How will your particular skills and experience benefit Council? Give some examples from your professional or personal life that show you have the right skill set to contribute to the work of Council.**

Having worked within the Highways and Transportation industry for the past 25 years coupled with knowledge and experience of delivering a service to customers across all regions of the UK, I believe there are transferrable skills that can assist the Institution.

Whilst I have a predominantly private sector work experience, the service that I have helped to deliver has always been focused on the end user. This requires focus on customer satisfaction, innovative thinking, a diverse approach to address problems and always balancing that with the budget that is afforded to us.

Working closely and in collaboration with others with the Institution I believe we can develop a strong value proposition that adds value to our members and helps to place them in a unique position be it through training, education, association with partners and through developed relationships that are unique to us.

**Professional Affiliations:** Fellow, Chartered Institution of Highways and Transportation

**Education and Qualifications:** 1992 -1995, BEng (Hons) in Civil Engineering; 1996 – 1997, MSc in Construction Management

**Present Post or Occupation:** London Contracting Director for Eurovia Contracting from March 2020

**Past and Present Service to the Institution:** 2019 to Date, Appian Board Chair; 2019 to Date, Board of Trustees; 2019 to Date, Council; 2019, London Regional Branch

**Proposers:** Deborah Sims, Dana Skelley, Martin Duffy, James Haluch

## Richard Llewellyn

BEng MSc(Eng) CEng FCIHT FHEA MICE

*My ambition for CIHT is to advance its membership and development activities to support its members in meeting their technical and career goals, championing skills, professional integrity, inclusivity, diversity and knowledge sharing by harnessing opportunities in our new digital world.*

### **Tell us about yourself and your professional background, including why you want to be a Council Member:**

The first fifteen years of my career were spent in the private sector where I developed my technical and managerial skills, ultimately resulting in my role as Regional Director at a major international consultancy. I then spent seven years as a lecturer in transportation engineering where I taught on courses and engaged in research in the UK and internationally. My most recent role has been Graduate Development Manager at Transport Scotland, where I led the graduate programme. I am currently taking a career break from this role to complete my PhD research. Throughout my career, I have believed skills and knowledge are central to the success of the individual and the profession and am passionate about skills development. It is with this focus that I would like to be a Council member, to influence the key role CIHT has in supporting its members in their technical, professional and career progression.

### **How will your particular skills and experience benefit Council? Give some examples from your professional or personal life that show you have the right skill set to contribute to the work of Council.**

In both my roles as an academic and an industry director, I made judgements based on strong evidence bases and applied critical thinking throughout my work. Questions need to be asked before informed decisions can be made and this is a key skill that I will bring to Council. Our members rightly expect accountability in governance, and this is a practice I have applied over recent years in my role as a non-councillor board member of the South East Scotland regional transport partnership. In this role, I have carefully and diligently scrutinised the organisation's technical and financial activities. Finally, I believe all endeavours should be underpinned by integrity, sound ethics, equality and undertaken on an open and inclusive basis. In my role as a Graduate Development Manager, I have been driven by these principles through my use of open recruitment, the celebration of diversity and strict adherence to the Civil Service code.

**Professional Affiliations:** Fellow, Higher Education Academy; Member, Institution of Civil Engineers

**Education and Qualifications:** 1993 – 1996, BEng (Hons) Civil Engineering with Computational Mechanics; 1996 – 1997, MSc (Eng) Transport Planning and Engineering; 2007 – 2009, Postgraduate Certificate in Engineering Management; 2013 – 2014, Postgraduate Certificate in Teaching and Learning in Higher Education; 2015 – Present, Doctor of Philosophy in Road Safety Engineering

**Present Post or Occupation:** January 2021 – Road Safety Researcher at the Transport Research Institute, Edinburgh Napier University (Currently on 15-month career break from Graduate Development Manager role, Transport Scotland)

**Past and Present Service to the Institution:** 2013 – 2015, Central and Southern Scotland Branch, Chair Training Sub-committee; 2015 – Present, Scotland Region Committee Member; 2015 – 2016, Junior Vice Chair, Scotland Region; 2016 – 2017, Vice Chair, Scotland Region; 2017 – 2018, Chair, Scotland Region; 2018, Chair, CIHT Scotland Highland Conference; 2018 – Present, CIHT Representative on Programme Committee, Scottish Transport Applications and Research (STAR) conference; 2019 – 2020, Assisted with initial development of the Professional Development Framework; 2020 – Present, Reviewer and Member of the Individual Route Assessment Panel; 2020 – Present, Board Member, Membership and Skills and Strategy Board; Various, Judge for Colas Papers award, Young Professional of the Year Award

**Proposers:** Martin Tugwell, Neil Johnstone, Nicola Blaney, Kelvin Clarke

## Richard Ward-Jones

MCIHT

*Actively involved with CIHT since 2015, I wish to join Council to guide & shape CIHT to be a leading voice in driving collaboration, diversity and digital technology across the sector to deliver a safer, more resilient and greener transport network*

### **Tell us about yourself and your professional background, including why you want to be a Council Member:**

I lead the development of Amey Consulting; responsible for the strategic growth and diversification of the business across the highways, rail and aviation markets. My background is in Intelligent Transport Systems (ITS) and I am passionate about collaborating across industry to respond dynamically to the world as it changes around us; through driving diversity and inclusion and embracing digital.

Since 2015, I've been actively involved in the West Midlands CIHT Region, as a member of the main and YP committees and nationally, I'm a Director of CIHT's subsidiary, Appian Trading Ltd.

I wish to be a Council Member to help guide & shape the strategic direction of CIHT at this exciting time in the Transport sector. I firmly believe that collaboration within and across sectors, focused through institutes such as CIHT, will be critical in responding to and capitalising on the change being driven by technology and an increasingly demanding customer.

### **How will your particular skills and experience benefit Council? Give some examples from your professional or personal life that show you have the right skill set to contribute to the work of Council.**

I believe that the skills and personal and professional experiences I bring can be of great benefit to the Council. Notably, I am:

- Experienced in development of strategy to provide focus for organisational investment
- A strong communicator able to listen and contribute to a debate
- Aware of market trends in the transport sector, through wide-ranging engagement with clients, suppliers, professional bodies and partners
- Collaborative; with substantial experience in partnership development and team building
- Well networked, with a strong professional network across the transport sector which I am able to draw on
- Passionate about innovation & technology and the importance of embracing digital across the sector
- An advocate for Equality, Diversity & Inclusion
- Experienced in undertaking and overseeing market research and analysis to inform decision making

**Professional Affiliations:** Member, Chartered Institute of Highways & Transportation (CIHT); Member, Association of Proposal Management Professionals (APMP);

**Education and Qualifications:** 2004/2007, BA (Hons) Environmental Management, University of Leeds; 2012, PRINCE2 Practitioner; 2013, LEAN Practitioner; 2015, Association of Proposal Management Professionals - Foundation Level Accreditation; 2017/2018, Post Graduate Diploma in Leadership, Coventry University (branded Roads Academy Senior Leaders Programme)

**Present Post or Occupation:** Market Director, Amey Consulting (May 2017 - Present)

Responsible for strategic growth at Amey Consulting across the road, rail and aviation sectors

**Past and Present Service to the Institution:** 2015-2017, CIHT West Midlands Young Professionals Committee Member; 2015-Present, CIHT West Midlands Committee Member; 2017-Present, Board Director of Appian Trading Ltd.

**Proposers:** Martin Tugwell, David Ogden, Chris Young, Phil Santos

## Susan Giahi-Broadbent

FCIHT; FIStructE; MICEL

*As an enthusiastic professional I wish to see CIHT occupy a dominant role in future transportation initiatives, recognising our body can only consolidate its position through a membership engaged in diversity, social inclusion, Covid recovery, Brexit and the Green Revolution.*

### **Tell us about yourself and your professional background, including why you want to be a Council Member:**

Chartered Engineer, Graduated at The University of Leeds, CIHT Fellow and IStructE Fellow, with over 25+ years of experience. I have held many interdisciplinary leading roles and responsibilities, both in the UK and overseas (Africa, Far-East & Middle-East) in transport related roads, highway and railway projects. I have wide experience in management, leadership, design, construction and maintenance of nationally strategic, highly complex and multi-disciplinary projects.

I would very much wish to continue on CIHT Council as I believe the coming years will be defined by global threats, Brexit and the resultant opportunities. Our immediate priority must be an effective recovery from the COVID pandemic, which is likely to prove hugely difficult and challenging. CIHT must also continue to address the climate emergency, engaging with membership on minimising transportation negative impacts, collaborating and knowledge sharing with our industrial partners through acting on what the future might hold for our profession and society.

### **How will your particular skills and experience benefit Council? Give some examples from your professional or personal life that show you have the right skill set to contribute to the work of Council.**

I have a strong desire to continue to be a proactive member of Council, playing my part to attract, support, mentor and inspire all ages of professional engineers and technicians, ensuring diversity and social inclusion within our recruitment of new members for all grades.

Lessons learnt from experiences of being involved with other professional bodies where I have actively been engaged in various roles over several years.

Also given my experiences have been with medium and large size firms of consulting engineers, I have learnt many skills where the focus is in Sustainability, Health & Safety and Wellbeing.

I am passionate in engaging with the wider public, both at a local and international level, encouraging the youth and other age groups to be actively associated with CIHT aspirations, whilst inspiring the next generation of professionals.

**Professional Affiliations:** Fellow (FCIHT), The Chartered Institution of Highways and Transportation (CIHT); Fellow (FIStructE), The Institution of Structural Engineers (IStructE); Civil Engineering Licence (MICEL), Association of Civil Engineers

**Education and Qualifications:** 1991 - Master of Science in Civil Engineering Construction MSc(Eng), 1996 - Chartered Engineer (CEng)

**Present Post or Occupation:** Senior Technical Director at Jacobs - 2016 to Present

**Past and Present Service to the Institution:** 2018-Present CIHT, Council Member; 2018-Present, CIHT - Membership & Skills Strategy Board Member; 2018-2019, CIHT - Procurement & Delivery Panel Member; 2017-Present, CIHT - West Midlands Committee Member; 2017 & 2018, CIHT - Judging panel Member for annual Awards; 2007-2018, The Institution of Structural Engineers - Executive Board Member; 2011-2017, The Institution of Structural Engineers - Membership Committee Member; 2012-Present, The Institution of Structural Engineers - H&S and Wellbeing Panel Member; 2020 – Present, The Institution of Structural Engineers - Structural Awards Judging panel Member (National & International); 2009 – Present, The Institution of Structural Engineers - Professional Reviewer; 2017, Service Award of the Institution of Structural Engineers.

**Proposers:** Martin Tugwell, Deborah Sims, Paul Unwin, Matthew Moss

## Umesh Parajuli

BEng, MSc, CEng, FCIHT, MCMI

*I would like to see CIHT to be transformed into a modern, inclusive, and innovative professional institution, leader for resolving transportation issues and the dissemination of knowledge to highways and transport professionals across the world.*

### **Tell us about yourself and your professional background, including why you want to be a Council Member:**

I am a Chartered Engineer, a fellow of CIHT with more than 24 years of professional experience gained working through civil engineering consultants, contractors, and local authorities in the UK & abroad. Working through various positions and roles, I have a wide range of experiences that broadly cover infrastructures condition assessment, design, value engineering/management, construction supervision, and project management.

Pavement engineering/Pavement asset management is the main area of expertise.

I have also served other professional institutions such as Nepal Engineers' Association and Society of Nepalese Engineers UK as an executive committee member/Director/Trustee

I am a STEM ambassador and am passionate about diversity and encouraging young people from all backgrounds into the transportation/highways sector.

I would like to serve on Council and contribute to formulating transport policies & directions by the institution in particularly Roads/Highways sector. Also would like to help skills & career development for young engineers.

### **How will your particular skills and experience benefit Council? Give some examples from your professional or personal life that show you have the right skill set to contribute to the work of Council.**

I have a wide range of experience from the public and private sector and, for the last 15 years in the UK from pavement asset management especially motorways and trunk roads.

The pavement is a major asset in the transportation sector. My experiences and expertise in the pavement asset management including skills such as need assessment, innovative, cost-effective, and efficient Pavement design, and value management should be a valuable asset for the institution while working as a council member.

I enjoy working collaboratively and good at networking with peoples and organisations. I have strong communication and influencing skills and love sharing knowledge and experiences. I am honest, open and always support and voice for the right things.

These unique combinations of skills and experience will be useful in working collaboratively on Council and in challenging and contributing to the development of CIHT's future direction and policy.

**Professional Affiliations:** Member, Chartered Management Institution (CMI), UK; Member, Society of Nepalese Engineers UK; Registered Civil Engineer, Nepal Engineering Council, Nepal; CEng, Engineering Council, UK; FCIHT, Fellow of Chartered Institution of Highways & Transportation (CIHT) (Member since 2007); Member, Nepal Engineers' Association

**Education and Qualifications:** 1992 to 1996, Bachelors in Civil Engineering (B Eng); 2000, Registered Civil Engineer, Nepal Engineering Council, Nepal; 2000 to 2002, MSc in Transport and Road Engineering specialised in

Pavement Engineering; 2014, ILM3 - Award in leadership & management by Institute of Leadership & Management (ILM), UK; 2015, CEng (Chartered Engineer) through CIHT; 2018, 2020, Certificate in Asset Management by IAM, APM PFQ: AMP project Fundamentals from APM Chartered Body

**Present Post or Occupation:** I am a Senior Pavement Engineer in Highways England based under Programme and Development team, South East Operational Directorate, responsible for Pavement Asset Management.

**Past and Present Service to the Institution:** 2007 to date, As a member actively participating in various events and programme organised by CIHT; 2013/14, I volunteered for an annual conference in London as a Young Engineer; 2020 to date, Professional Reviewer for CEng, IEng, EngTech

**Proposers:** Deborah Sims, Bob Pizzey, Deepak Kaphle, Arun Rangasamy
