Technical Seminar

Creating Sustainable Developments Through Integrating Planning & Transport

The unmissable event for highways and transportation professionals interested in broadening their skillset, being inspired and informed, and finding solutions to the challenges they face.

This seminar is THE CPD event for you.

Why you cannot miss out

- **Develop** your knowledge and contribute to leadership around creating sustainable developments.
- **Discover** best practice to use in your role, while helping shape the future of the transportation industry.
- **Engage** with leading experts and get your questions answered during Q&A sessions and network if you attend in person.

Tickets are available for in-person or virtual attendance.

Networking Sessions

Dedicated networking sessions for those attending in person.

Workshops

In-person attendees of this event will be able to take part in interactive workshops and get their voices heard on this important topic.

Content Sessions

Content sessions will highlight the work that needs to be done to improve land-use and transport planning to enable sustainable development.
