

Miguel-Angel's career spans over two decades across Europe, the Middle East, and Africa, with notable leadership roles including:

- Road Safety Manager at Gloucestershire County Council (UK)
- Technical Director for MSV Global (Land Creation Contracting Group) in Doha
- Senior Road Safety Engineer for Ashghal (Public Works Authority), overseeing and approving all Road Safety Audits in Qatar
- Road Safety Expert for the National Road Safety Center (NRSC) in Riyadh, Saudi Arabia

Miguel-Angel holds multiple prestigious professional designations:

- Chartered Member, Institution of Civil Engineers (CEng MICE)
- Chartered Manager, Chartered Management Institute (CMgr MCMI)
- Fellow, Chartered Institution of Highways and Transportation (FCIHT)
- Fellow, Society of Road Safety Auditors (FSoRSA)
- Fellow, Spanish Association of Road Safety Auditors (FASEVI)

His international portfolio includes the successful delivery of high-impact road safety projects, such as the Ten Steps Project in Tanzania, which earned the Prince Michael International Road Safety Award, with Miguel-Angel serving as IRF Lead Trainer.

In addition to his technical and strategic contributions, Miguel-Angel is deeply committed to professional development and global collaboration. He is:

- Chair and Committee Member of SoRSA
- Vice-President of ASEVI

He has played a pivotal role in fostering cross-border partnerships among engineering professionals and has delivered Traffic Management and Road Safety courses to students and practitioners worldwide. His training programs have been endorsed by IRF, Qatar University, and

ASEVI, and he is a sought-after speaker at international conferences, seminars, and universities.
