

An Insight into the DMRB Update Plus Festive Drinks

Date: Wednesday 12th December 2018

Time: 17:30 – 18:30

Venue: WSP, The Forum, Barnfield Rd,
Exeter EX1 1QR

Seminar presented by

Matt Pilsbury, Senior Technical Advisor, Safer Roads – Design Team, Highways England

As part of Highways England's licence agreement with the Department for Transport (DfT), Highways England are in the process of updating the entire suite of Design Manual for Roads and Bridges (DMRB) documents. This presentation aims to give you an overview into why the changes are being made and an insight into the drafting rules for the new style of documents. The presentation will be concluded with a workshop that looks into the complexities of updating the existing documents into the new format.

Previous experience and knowledge of using the DMRB is not essential.

Following the seminar, we will head over to the Cosy Club for some festive drinks – a great opportunity to catch up and network.

This is a **FREE** event, however please register using the new CIHT website by Friday 7th December 2018.
