

The Neuroscience of Successful Project Engagement

Highways England, The Cube, Birmingham B1 1RN

We're excited to announce that we'll be joined by Tom Flatau, an international speaker whose clients include HSBC, Louis Vuitton, American Express, Siemens, Kier, Emirates and Unilever. He trained with the NeuroLeadership Institute and is a Fellow of the Institute of Leadership & Management.

In this short event, Tom will give anyone involved with projects a broader, more holistic understanding of their role, beyond day-to-day management, one that is more in tune with the life-time value of the project and the ultimate needs of all stakeholders.

The latest neuroscience and positive psychology research shows that success is within everyone's grasp because intelligence and ability can actually grow!

12th February 2019 – 5.30pm to 6.30pm

Tickets just £10

'a thought provoking and stimulating evening from which everyone took away something they could use straight away in the office.'
