

Annual General Meeting 2019

Join the Committee for this year's Annual General Meeting.

This is an exceptionally important event within the Regions calendar as it allows you, the Membership to have a direct say in how the Committee is ran and the focus and direction you wish to see over the coming year.

In addition to receiving an update on what's been undertaken over the last twelve months, Members will also be able to vote for a new Committee who will preside over what is expected to be another busy and productive year. In addition we will receive a technical presentation entitled;

"Metro Futures – the next generation of trains"

Neil Blagburn, Metro Development Director at Nexus will provide an insight into their Fleet Replacement Programme including the scope and timescales of this programme. This will also include the wider business changes that this programme will drive. together with the challenges faced by Nexus in delivering these vital changes.

Following the event there will be the opportunity to network with fellow professionals and partake in free refreshments.
