## ***Calling all Transportation Professionals!***

The CIHT Yorkshire and Humber is organising an informal networking event aimed at emerging professionals, apprentices and students in the transport sector.

This is your chance to meet people from other parts of the industry who are at a similar stage of their careers and to form your own professional network.

CIHT representatives will be present to answer any questions you have about the organisation, including our national Young Professionals Network.

We'll also be speaking to anyone interested in joining the regional Young Professionals Committee.

**Free pizza** will be provided!

The event is free to all, including non-CIHT members, but please be sure to sign up via Eventbrite so we can order enough food for everyone.

**Young professionals are classified as anyone with less than 10 years' experience in the industry, but all are welcome!**
