

Data, CCTV Analytics and Transport:

How the data revolution is changing transport across modelling, construction and communications.

Stuart Lester:

Stuart Lester is the Data Innovation Lead at Transport for West Midlands using his background in ICT and GIS to push innovative development and solutions to support the region's Movement for Growth Strategy and the Regional Transport Coordination Centre.

Mark Babington:

Mark Babington is the Head of Safety, Security and Emergency Planning and Transport for West Midlands with post graduate qualifications in criminology and forensic psychology. Mark is responsible for chairing the Safer Travel Partnership Tasking while also delivering innovative projects in data analytics and CCTV across the West Midlands.

The event is open to members and non-members. Refreshments will be provided.

Date: 14th May 2019

Time: 17.30pm for a 18.00pm start

Venue: The Habitat, 5th Floor, Transport for West Midlands, 16 Summer Lane, Birmingham, B19 3SD
