

Engineering Technician (EngTech) qualification with the Chartered Institution of Highways & Transportation

Engineering Technicians are trained specialists with practical knowledge and the ability to solve engineering problems. They can hold a number of office and site based roles in the highways and transportation sector. That could mean planning, survey & investigation, design, construction, operation and maintenance of either individual engineering elements or whole projects.

At this free event the route to securing EngTech qualification with the CIHT will be explained. Speakers include an EngTech reviewer / mentor and successful EngTech candidates.

If you are working in the public or private sector, office or site based and considering an engineering technician qualification come along and see if this is for you. Non CIHT Members are welcome.

You will have the opportunity to ask questions and network with others on the same journey as you.

Lunch will be provided.

Date: 27th June 2019
Time: 12:00pm to 2:00pm
Venue: Room 201
Birmingham City Council
1 Lancaster Circus
Queensway
Birmingham, B4 7DJ
