ROADS  
ARCHIVE**

## **CIHT SCOTLAND – AGM 2026 – SRA ANNUAL REPORT**

The Scottish Roads Archive is grateful to CIHT Scotland for its ongoing support and encouragement. The Archive continues to grow and in the past year has taken ownership of several collections relating to historic Scottish roads projects. Our association with the CIHT has led to people making contact to discuss donations of their records.

The CIHT's donation of £500 in December 2025 supported the SRA's work in the following ways:

- £100.00 has been earmarked to allow for the continuation of our popular educational podcast series "The Scottish Roadscast". This will cover ongoing subscription and software costs.
- £100.00 has been earmarked for the scanning of recently acquired material, including a collection of images charting the construction of the Tay Road Bridge in Dundee. With thanks to Automated Document Services Ltd.
- £300.00 has been earmarked towards the cost of renewing our website subscription for a further three years. This will ensure our popular and growing website remains online and free of advertising until at least 2029.

The SRA looks forward to hosting further in person events and webinars later this year and we hope to reveal further information soon.
